

CONNECT FOUR

NOUN OR PROPER NOUN

To play Connect Four: Nouns vs. Proper Nouns, you need the Connect Four grid and a set of coloured counters for each player. The youngest player goes first. On your turn, put a counter on a word in any column and say whether the word is a noun or a proper noun. A noun is a general thing, like dog, city, or book, and a proper noun is a special name, like Emily, Wellington, or Charlie Brown. If you are wrong, remove the counter. The first player to connect four counters in a row—horizontally, vertically, or diagonally—with the correct type of words wins!
